"GENTLEMEN:-I am glad to write you my opinion of 'Ivony

It has become a household necessity with us. If there is an unusually obstinate spot on the clothing, on the woodwork, an ink daub on my desk cover; a polish required for the doorplate or surgical instruments, a cleansing and harmless preparation for the teeth, and a very superior toilet soap needed, we resort to 'Ivory,' We buy it by the box, remove the wrappers, and allow the soap to thoroughly ripen.

Now, if I had saved fifteen wrappers I would ask you to send my little girl a drawing book in accordance with your offer in the Youth's Companion; but as it is, we all feel under obligation to you for manufacturing 'Ivony Soap' for us.

We do not hesitate to recommend it unqualifiedly to all our friends. It is one of the few articles that will do what it is advertised to do."

Change.
The morn was fair and promised true,
A day of mn in summer land;
And love was fond, and love was new,
With all of blies it could command;
Thus, sweet, I promised unto you
My love should true and stendfast stand.

The moon sun shone with fervid heat Upon the land, upon the sea;
And you were by my side, my sweet,
But seemed not quite the name to be,
For you had shanged—and it is most
To own a change had come to me.

The sun sinks in a sea of gold, Acrom the prairie reaching wide; The tale of change I would withhold, But cannot from you, sweet, my bride; Your're dearer now a thousand fold To me than in the morning lide. —[Times Democrat.

The executive committee of the improvement Association held an adjourned meeting Tuesday evening Methodology the office of E. S. Beais, Esq. The various committees made progressive reports, and it was very evident that they had attended to the work assigned them as far as they could to the present time. A considerable time was occupied relative to our public park, of what has been and is now being done. The section of the park between the frigrim church and Mr. Orent's store is being ploughed up and graded and several elim trees are to be set next to the street. Mr. Heafs, who gave the land to the town, is taking a decided interest in the improvements now being made, and if everyone living in this yring ending the will be willing to aid in this grand enterprise by contributing liberally, a good work will be done this year. ally, a good work will be done this year.

Mr. George Lovell offered a few weeks ago, to give the association a five years' lease of his building on Hridge street, known as Ford's saloom or eafe, to be used by the association as a reading room. Although feeling very grateful to Mr. Lovell, the committee thought it hardly advisable to accept the offer, as it would cost two hundred dollars or more the first year. The needing tendered Mr. Lovell a vote of thanks for the generous offer which he had made the association, and then adjourned.

The community was shocked early Monday morning at the receipt of a telegram from New York announcing the death of Leavitt Bates, one of East Weymouth's well known and influential citizens. Mr. Bates had been in New York altending the general conference of the Methodist Episcopal clureb, and was one of two laymen cleeted out of 25,000 at the New England Southern Conference, which is the highest gift a church can bestow upon a layman. UR advice to consumers of Ivory Soar is, buy a dozen cakes J at a time, take off the wrappers, and stand each cake on end in a dry place; for, unlike many other soaps, the Ivony improves by age. Test this and you will find the twelve cakes will last as long as thirteen cakes bought singly. This advice may appear to you as being given against our own interests; on the contrary, our interest and desire is, that the patrons of Ivony Soap shall find it the most desirable and economical soap they can use. Respectfully, PROCESS & GAMBLE, Co.
